

Announcing the CRGE Spring 2005 Graduate Colloquium

This Colloquium is designed specifically for graduate students interested in the intersections of race, gender, ethnicity and other dimensions of difference. Our intention is to extend current thinking about theoretical, methodological, and pedagogical approaches to intersectional analysis, as well as apply these insights to graduate student's own work. The Colloquium meets monthly to create interdisciplinary ties among graduate students interested in questions surrounding the construction and perpetuation of categories of social difference.
